

Eco-Friendly

- * No use chemical substances
- * **By-product is not generated**
- * No use neutralizing agent, so there are no secondary pollutant

Convenience

- * Simple maintenance
- * **Easy installation to newly constructed & existing vessel**
- * Easy operation by automatic control system

Cost-Effective

- * **Competitive Price**
- * **Compact size with minimal foot print**
- * **Low Power Consumption**

Advantage

- * **Exceptional performance of ARA PLASMA BWTS in high level of turbidity**
- * Differentiation of leakage sensor in MPUV chamber
- * Use of inner polyethylene coating pipes

Safety

- * **Safety for marine environment**
- * **Safety for your assets and your people**
